Friday - 19 March 1955  5. Senator James B. Fearson, called and asked if we had a map of South Victums showing those areas which are occupied by the Victuong. After checking with ORE/Cartography Division and of the DD/I office, kir. Beach was advised that the only maps which the Agency had on this were classified, however, we wangested that he contact hir. Arthur Spivester's office in the Pentagon since any maps on this subject were based on military intelligence. I told hir. Beach that if he should have any great difficulty on this to give me another call.  5. Picked up from the Joint Committee on Atomic Energy a copy of the Director's briefing of 4 February 1955. Tids will be forwarded to Olf for corrections.  8. Met with hir. Robert Michaels, House Appropriations Committee Staff, who advised that although he had met with Defence representatives today concerning the cost of the proposed communications facilities and tie-ins referenced in certain testimony earlier this mosth that the DOD representatives do not as yet have any figures available and further meetings will be necessary with them on this subject.					Conning.		
Nonator James B. Pearson, called and asked if we had a map of South Vietnams showing these areas which are eccapied by the Vietcong. After checking with CRE/Cartography Division and		Jensei - Friday -	Office of 19 March	Legislati 1765
